

## Life-Long Learning and Employability Competency Upgrade and Execution Excellence

### The SanderMap solution

The SanderMap solution covers competence profiling, development planning, Talent Management, Performance Management, Strategic Workforce Planning and recruitment/on-boarding. You can start using one feature, as an individual or you can use it all, even in very large organizations. Scalable. Replicable. Easy to use. High value adding. Value for money.

### Artificial intelligence

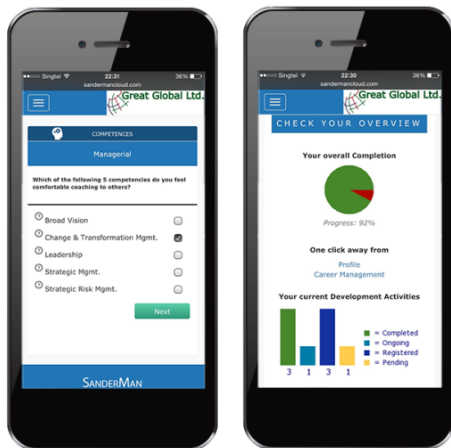

The new SanderMap solution has developed more advanced algorithms and use of Artificial Intelligence. The advantage for you includes tailored suggestions for competence upgrades.

### Employability- for the future™

The SanderMap solution provides you and organisations with the tools and methodology to align the needs and priorities of the company with their employees. Covering vital areas for future success, via a cloud-based Software as a Service (SaaS) solution. For individuals it helps to identify, develop and optimize competencies for higher performance.

### Build in Workflows

The SanderMap solution offers a seamless experience across desktop and mobile devices, and integrates other services such as LinkedIn.
